STC 2023 – How to redeem promocodes

Please note that two different promocodes are available. With the promocode **“Free entry STC 2023”** you ensure that your selection of STC 2023 program items (Colloquium and ceremony, Swiss Tunnel Congress) will be registered free of charge. The promocode **“Anniversary celebration”** allows you to additionally register for the Anniversary celebration (banquet) free of charge.

If you are a **member of the STS** (collective or individual member) and would also like to attend the STS Annual General Meeting (AGM), which will take place prior to the colloquium, you can also register for it via the STC 2023 online registration (at the same time as your registration for the STC 2023 or the Anniversary celebration):

1. Please access the online registration form via:
<https://www.swisstunnel.ch/en/swiss-tunnel-congress/conference-programme>
2. Click “Next” and select the appropriate membership type.
3. Enter the required personal data.
4. Let us know which program items you want to attend. You will find the different options for redeeming the promocodes below.

The STC 2023 proceedings will only be printed on demand and are subject to a charge (even with promocode(s)). The digital version can be downloaded free of charge from the STS website during the congress.

Option A: Promocodes for participation in STC 2023 and Anniversary celebration

If the same person is attending both, STC 2023 (Colloquium and ceremony, Swiss Tunnel Congress) and the Anniversary celebration (banquet), please make your program selection first. As soon as your selection is final and the GTC have been accepted, please enter both promocodes **one after the other** into the designated field “Promocode” and press **“Redeem”** after **each entry** of a promocode. Afterwards you can continue with “Next” and complete the registration. This procedure ensures that only one ticket needs to be issued (not two).

Option B: Promocode only for participation in STC 2023

If you are attending exclusively the STC 2023 (Colloquium and ceremony, Swiss Tunnel Congress), please make your program selection first. As soon as your selection is final and the GTC have been accepted, please enter the promocode in the “Promocode” field provided and press “Redeem”. Afterwards you can continue with “Next” and complete the registration.

If you have a promocode “Free entry STC 2023” but also want to attend the Anniversary celebration (banquet) for a fee, please select “Anniversary celebration” besides the options “Colloquium and ceremony, Swiss Tunnel Congress”. This procedure ensures that only one ticket is issued (not two).

Option C: Promocode only for participation in the Anniversary celebration

If you are participating exclusively in the Anniversary celebration (banquet), please first select the program item “Anniversary celebration”. As soon as you have accepted the GTC, please enter the promocode in the “Promocode” field provided and press “Redeem”. Afterwards you can continue with “Next” and complete the registration.

If you have a promocode “Anniversary celebration” but also still want to attend the STC 2023 for a fee, please make your other selections beside to the “Anniversary celebration” option. With this procedure you ensure that only one ticket is issued (not two).

Example:

Colloquium and ceremony on June 12, 2023

Anniversary celebration (banquet) on June 12, 2023

Since the number of participants at the anniversary celebration is limited, we ask you to register for the anniversary celebration only if you can really participate.

Swiss Tunnel Congress on June 13, 2023

With your registration or participation, you confirm that you have read and accepted the [GTC](#).

The selection will be deposited free of charge once the promocode is entered and redeemed.
